Students in the program come from diverse backgrounds with different types of preparation. The following advance readings are intended to ensure that everyone is familiar with some common terms and issues in museum anthropology, which will be referred to throughout the training. Depending on your background, study these or skim these! Additional readings relating to individual lessons will be listed in the Syllabus.

**About Smithsonian collections-building:**

Henson, Pamela  

Parezo, Nancy  

**About technical museum practices:**

Burcaw, G. Ellis
