collation interpretation: *Mém. Acad. Imp. Sci. Saint-Pétersbourg, Sér. 6, Sci.*

Math., [Vol.] **3, Seconde Pt. Sci. Nat.**, [sub-vol.] **1**, [livraisons] **(1-4)**:

page no.

-IGS cites only the sub-vol. number. but there are Primere and Seconde

parts of the sub-vols., Math. & Phys. being in the primere part, and Sci.

Nat. being in the second part of sub-vol. 3 etc.

-TL-2 does not cite the sub-vol. number, but adds second part after the

initial volume no. as: 3"(2)" [which = 2nd part. Sci. Nat., and is

redundant if "Seconde Pt. Sci. Nat." is in the title] after the first Vol. number. and does not include sub-vol. no.

-The livraisons are not continuously paginated (as there are separately paginated sections, "Botanique" and "Zoologie et Physiologie", within the Sci. Nat. partition), therefore the livraison no. is essential to cite.

-in Tropicos the "Seconde Pt. Sci. Nat." is included in the title following B-P-H (563.24), so: 5, 2nd pt., 3 (1-2): 1-238 is reduced to 5,3(1-2): 1-238.

-in Tropicos the "Seconde Pt. Sci. Nat." is included in the title following B-P-H (563.24), so: 5, 2nd pt., 3 (1-2): 1-238 is reduced to 5,3(1-2): 1-238.
